

Title of Abstract (The title should accurately describe the questions answered by the study.)
Presenting Author's Name, other author's names.
Authors' affiliated institution(s).

The completed abstract should have a title, introduction, methods, results, and conclusion section. The length of the actual abstract must be no more than 350 words. All sections should be written using Arial, 12-point font and using a justified alignment. Section headers should appear in bold, and the text, which follows in each section, should be unbold.

Introduction: This section should include background information in order to introduce the current study, its importance to the literature, and its impact on society. The introduction should also clearly characterize the scientific question being investigated. This section should be written using Arial, 12-point font.

Methods: Materials and Methods used in the study should be briefly explained in this section. When relevant, information regarding statistical comparisons should be provided. This section should be written using Arial, 12-point font.

Results: This section should include a concise summary of any significant positive and negative results. This section should be written using Arial, 12-point font.

Conclusions: Conclusions, implications, and significance of the data should be stated concisely. Do not introduce or defend concepts not considered in the body of the abstract. This section could also include recommendations for future studies. This section should be written using Arial, 12-point font.
